How to fill a row

Won on a discard	the discarder writes minus 2 × the value, the other two write minus the value, the winner writes plus 4 × the value
Self-picked	all three write minus 2 × the value, the winner writes plus 6 × the value
Jokerless	double every number in the row (not for singles and pairs hands)
Nobody wins	write a dash; nobody pays

The value is the number printed beside the winning hand on your card. A player whose pie is used up keeps playing and stops paying.
